DANIAL SIM WEI JIE

Senior Full-Stack Developer | Team Lead

Dengkil, Selangor | 019-240 2540 | danialsim95@gmail.com | LinkedIn | Website

PROFESSIONAL SUMMARY

Hands-on Team Lead and Full-Stack Developer with 7+ years of experience across web, mobile and SaaS applications. Experienced in requirements, architecture, APIs, frontend development, testing, deployment and production support. Strong in PHP/Laravel, Vue.js, Flutter and multi-tenant systems, with hands-on experience rebuilding sMasjid from Laravel into a Spring Boot API backed by PostgreSQL. Leads code reviews and applies automated quality checks to build maintainable business applications.

CORE COMPETENCIES & TECHNICAL SKILLS

- **Backend & API Development:** PHP (Laravel, CodeIgniter), Java Spring Boot, REST APIs, MySQL, PostgreSQL, Multi-Tenant SaaS, Domain-Driven Design, .NET Legacy Migration, Node.js
- **Frontend & Mobile Engineering:** Vue.js, React, Angular, JavaScript, TypeScript, HTML/CSS, Responsive Web Design, Flutter (Dart), Android (Java, Kotlin), Ionic, React Native
- **Cloud, DevOps & Security:** AWS (Cognito, S3, EC2, IAM), CI/CD Pipelines, GitHub Actions, Docker, Penetration Testing Remediation, Google Play Console, Apple App Store Connect, Huawei AppGallery
- **Testing & Quality Engineering:** PHPUnit Feature Testing, Unit & Widget Testing, Automated Coverage Enforcement, Code Auditing, Spec-Driven AI Workflows (Claude Code, ChatGPT)

WORK EXPERIENCE

Flow Digital Asia – Kota Damansara, Selangor, MY

Team Lead | Sep 2025 – Aug 2026

Senior Full-Stack Developer | May 2025 – Aug 2025

Full-Stack Developer | Jan 2024 – Apr 2025

- Progressed from Full-Stack Developer to Senior Full-Stack Developer and subsequently Team Lead, taking responsibility for technical architecture, code reviews, troubleshooting, releases and coordination of a mobile development team of up to three junior developers.
- Developed and maintained enterprise applications across Laravel/PHP, Vue.js and Flutter, covering REST APIs, business workflows, database changes and third-party integrations.
- Worked directly with project managers, clients and developers to translate business requirements into technical solutions and support production troubleshooting and handover.
- Contributed to SaaS and enterprise platforms including PEOPLEAPS/MYSKILL2U, Flowhubr, HTS ALis and PIPS across web, backend and mobile development.
- Enhanced the EU Holidays travel booking platform through CodeIgniter feature development, API integrations and system optimization.
- Introduced development standards, automated quality checks and specification-driven AI-assisted workflows to improve development and code-review processes.

Universiti Kebangsaan Malaysia (UKM) – Bangi, Selangor, MY

Software Developer & Research Assistant | Sep 2020 – Sep 2023

- Developed proof-of-concept and research applications across Laravel/PHP, Vue.js, React and native Android, integrating APIs, databases, computer vision, AR and hardware where required.
- Co-developed FSMWear with PRSB, integrating RealWear hardware with field-service workflows and backend systems.
- Developed and maintained research platforms including MinarVMS, HadirUKM and ZeroWMS, supporting demonstrations, testing and research activities.

TimeTec Cloud Sdn Bhd – Cyberjaya, Selangor, MY

Mobile Application Developer | Jan 2020 – Aug 2020

- Maintained i-Neighbour and IOI Community production Android applications, delivering features, resolving performance issues, updating SDKs and coordinating QC and Google Play releases.

MyXLab Solutions PLT – Bangi, Selangor, MY
Project Manager | Mar 2019 – Dec 2019
Intern Mobile Application Developer | Aug 2018 – Feb 2019
Part-time UI/UX Designer | Jul 2017 – Jul 2018

- Progressed across UI/UX, mobile development and project management responsibilities, contributing to Android/Ionic applications, user testing, stakeholder coordination and production releases.
- Managed BasKita development and field testing while contributing to applications including UKMeals, Smart Mamak and UKM Explorer.

Self-employed – Greater Kuala Lumpur
Freelance Full-Stack Developer | Jan 2017 – Present

- Developed independent, client and research applications using Laravel/PHP, Angular, Android and API-based architectures, covering requirements, system design, development and testing.
- Rebuilt sMasjid from PHP/Laravel into a Spring Boot API backed by PostgreSQL, a React admin portal and a Next.js public site. Other independent work includes ScoScreen.

PROJECT HIGHLIGHTS

sMasjid | Independent Mosque Operations & Community Platform

- Built the original mosque operations platform in PHP/Laravel, then rebuilt the backend as a Java Spring Boot API backed by PostgreSQL, with a React staff portal and a Next.js public site.

PIPS | PEOPLElogy Integrated Productivity System CRM + Sales Workflows

- Developed end-to-end CRM sales workflows spanning lead tracking, qualification and conversion, connecting Vue.js dashboards with Laravel business logic, state transitions and relational data to translate stakeholder requirements into a usable corporate sales pipeline.

Flowhubr | Flow Digital's in-house SaaS platform

- Built the mobile application for Flow Digital's in-house SaaS platform and owned its technical direction, re-platforming 13 feature modules to BLoC and Clean Architecture. Established 1,319 automated tests with 88.3% line coverage, an 85% CI threshold and automated architecture-quality checks.

HTS ALis | Asset Location Information System for Hicom-Teck See

- Digitalized plant asset movement and paper-based sign-off processes through a 5-stage approval workflow with QR/GPS tracking, e-signatures and authorisation PDFs. Solely developed the 43-screen, 8-module mobile client and expanded its automated test suite to 2,205 tests through post-launch delivery.

PEOPLEAPS + SKILL2U | Multi-tenant Learning Management System

- Designed the Laravel multi-tenant architecture using Domain-Driven Design, database-per-tenant provisioning and workspace-based access control. Scoped migration against 170 legacy .NET endpoints and 45 entities while supporting learning, assessment, certification and Zoom-integrated workflows.

EDUCATION & CERTIFICATIONS

- **Bachelor of Information Technology with Honours (Distinction)** – Universiti Kebangsaan Malaysia (UKM), 2019
- **Python** – TestDome (2026)
- **Vue.js** – TestDome (2026)
- **Android Certified Application Developer** – Android ATC (2017)
